KEY ACHIEVEMENTS

Secured gold medal for academic performance in B.E 1st year

STRENGTHS

1. Quick and Self-learner
2. Problem Solving Skills
3. Good Communication Skills
4. Inquisitive
5. Adaptability

SUMMARY

I am a dedicated student with an expertise in project management and problem-solving, committed to delivering efficient, user-centric solutions through effective leadership and technical proficiency. I am passionate about continuous learning and adapting to new challenges.

MY PROJECTS

PrintEasy

- PrintEasy simplifies document printing at the local printing shops by eliminating the need for USB drives, emails, or messaging apps to transfer files. No more educating the risk of data breaches and documents are automatically deleted from local shop computers after printing job is done, ensuring user privacy and data protection.

RecipeGPT: Culinary Companion

- an innovative recipe-making app that harnesses the power of ChatGPT to transform your ingredients into delicious dishes. Simply list the ingredients you have, and RecipeGPT will suggest creative, step-by-step recipes tailored to your preferences.

CreditStar

- creditstar is a revolutionary expense management app designed to simplify the often complex and awkward process of splitting bills and expenses among friends, family, or colleagues
